08. Juggernauts and Crosses

Full story and 100% mission walkthrough

True Believer target: 110,000 studs.

Completion requirements: finish the story, achieve True Believer, collect all 10 minikits and rescue Stan Lee. These award four Gold Bricks in total: one for each requirement, with one brick for the complete minikit set. All ten minikits also complete this level's comic.

Before you begin

This guide covers the original LEGO Marvel Super Heroes console/PC campaign. Play the story route first, then return in Free Play for a complete collection run. Finish the campaign and unlock or purchase the additional characters you need before attempting every detour. The numbered minikits below identify this guide's route, not a separate numbering system shown by the game.

Free Play characters and abilities: Keep Cyclops, Jean Grey, Storm, Iceman and Beast for the mansion story. Add Magneto for metal, Iron Man Mark 42 for flight and silver explosives, Spider-Man for web handles, Sandman for the sand panel, Hulk for the rescue, Captain America for the shield switch and Mister Fantastic for the grate.

Route warning: The foyer's gramophone is high on the left; get it on your first visit to avoid forgetting it on the return. The Stan rescue outside is separate from the Stan interaction in the Manhattan approach to the mission.

Reaching True Believer

Break the mansion furnishings while completing each rescue, then sweep the garden and upper balconies. Use 110,000 studs as the target. Collecting everything in the opening foyer and later lounge helps avoid relying on the final hangar fight.

You need 110,000 studs in a single visit to this mission; totals from separate attempts do not add together. Smash scenery, follow stud trails and recover dropped studs promptly after a death. Enabled stud-multiplier extras count towards the meter: with only x2 active, 55,000 ordinary stud value reaches this target. Check that the True Believer banner has appeared before ending or saving your run. You can earn it in Story Mode or Free Play.

Full story route

Team: Jean Grey and Cyclops, joined by Storm, Iceman and Beast

Goal: Rescue the X-Mansion's students and stop Juggernaut in the hangar.

1. Enter the mansion

Outside the mansion, use Jean's mind control on Stan Lee beyond the flames. Make him assemble the nearby pipe mechanism, release control and use Jean's telekinesis on the purple valve to extinguish the fire. To the right, move the purple pieces into the X-shaped mechanism to open the hidden entrance.

Jean has two different psychic interactions: mind control operates another character, while telekinesis moves highlighted objects. Select the person or object appropriate to the task rather than assuming any psychic action will work. The outdoor Stan rescue is part of the hub approach and is separate from the rescue hidden inside the story level.

2. Rescue the foyer students

Fight the attackers. Cyclops melts the gold statue on the left; Jean moves the bookcase behind it. Use the exposed switch to open the first escape tunnel.

Build the damaged stairs and climb to the balcony. Jean moves her portrait, revealing a gold wall for Cyclops to cut through. Build and pull the resulting switch to release the second group of students. Follow Juggernaut through the doorway he opens.

In the burning corridor, Jean mind-controls the worker on the far side. Have him build the sprinkler or water mechanism in the side room. Once the flames are out, Jean opens the psychic door so the heroes can bypass the blockage. At the next obstruction, Cyclops melts the gold section and Jean removes the remaining debris. Enter the dining room to find Storm caught by Toad.

3. Free Storm and reach the garden

Switch to Storm and follow the attack prompt to shock Toad. Extinguish the nearby fires. Break the piano and other objects to obtain the missing chair pieces, build them and use Jean to place all three chairs at the table. Charge the transformer that appears with Storm to open the students' escape route.

After the next attack, Cyclops cuts the gold panel beside the security door. Jean connects the loose cable to the nearby armour; Storm charges the newly exposed transformer. Proceed into the garden.

Find Iceman fighting Pyro and complete his repeated-button prompt. Freeze the broken fountain into stairs. On the upper path, Cyclops destroys the gold obstruction to release water; Iceman freezes the puddle into a bridge. At the far doorway, Jean removes the plants and Cyclops cuts through the gold door. Use the new route back inside.

4. Complete the remaining rescues

Jean moves the bookcase beside the large screen and mind-controls the worker behind it. Make him activate the controls, then step on the floor pads in the order shown on the screen to open another escape tunnel.

Build the psychic platform near the ruined stairs and use Jean to raise a teammate. Cyclops breaks the clock above to supply ladder pieces for the others. Put out the flames near the exit with Iceman, use Jean to make the bridge and melt the door's gold hinges with Cyclops.

Back in the foyer, clear the fire and debris from the right staircase. Assemble the two armour statues and use Jean to put them on their matching coloured pedestals: red on the left, blue on the right. Storm charges the transformer revealed behind the painting. Enter the opened passage to reach the hangar.

5. Juggernaut: two sound traps

Start with Jean and return one of Juggernaut's thrown crates using telekinesis. Once the crate covers his head, avoid his running charges and use Iceman to extinguish the fire on the left. Build the door levers and hold both with two characters. Break the released crate, build the sound system and activate it with Jean.

Juggernaut charges the noise and crashes into water pipes. Freeze him with Iceman, then use Jean to lift and throw the ice block. Next, return another thrown crate with Jean. Extinguish the fire on

the right, build the console and operate it with Beast. Build the alarm clock from the released pieces to create the second sound trap. Freeze Juggernaut after the crash and throw him again.

Throw the frozen boss to damage him.

6. Remove the helmet and finish

When more pieces fall, use Jean to assemble the large console and Beast to operate it. Guide the crane through the displayed path using its directional controls until it removes Juggernaut's helmet.

Jean can now mind-control Juggernaut. Make him pull the back wall's green handles to release water. Iceman freezes him; Jean throws the ice block to end the level.

Complete Free Play collection route

Follow these entries alongside the story route above. Complete each area’s detours before taking its exit. For a challenge involving several objects, start at the first listed location and finish the whole set in the same replay. A challenge’s reward may appear later than another numbered minikit.

Minikit 1: Foyer: bookcase puzzle

Reach the right side of the burning foyer. Melt the gold padlock with Cyclops or Mark 42 and assemble the fallen books into an X. The completed book arrangement awards the minikit.

Minikit 2: Foyer: gramophone

Fly up to the balcony on the far left. Use Magneto on the blue gramophone to operate it, then collect the minikit that appears. This is above the normal ground-level student-rescue route.

Minikit 3: Hallway: side room

After Juggernaut opens the next doorway, pull the handle on the first side door with Spider-Man. Enter and break the crate inside; use heat on its gold part if necessary. Collect the minikit before continuing into the burning hallway.

Minikit 4: Bathroom: blocked toilet

After mind-controlling the worker to open the route, enter the bathroom behind the fire barrier. Blow apart the silver obstruction with Iron Man. Use Jean Grey’s telekinesis on the plunger/toilet assembly to bring out the minikit.

Minikit 5: Dining room: metal armour

In the room where you meet Storm, inspect the blue-metal armour at the back-left. Use Magneto to lift the statue, then manipulate its base/compartment as well. Collect the minikit from the opened recess.

Minikit 6: Garden: five gargoyles

Destroy the silver gargoyle on the right, the one near the ruined stairs, the one on the right balustrade near the gold exit door, the one beside the X-shaped shrub near the entrance, and the one above that shrub at the roof edge. Use missiles on silver parts.

Minikit 7: Garden: sand radar

The silver object/gargoyle on the right conceals a dig spot. Destroy it, dig with Beast or Wolverine and build the sand panel. Use Sandman to form a radar; wait for the sand helicopter to deliver the minikit.

Stan Lee in Peril

In the garden after Iceman joins, look back towards the mansion for Stan hanging above a burning wooden shack. Extinguish the fire, build the green handles and pull the shack apart with Hulk. Build the remaining pieces into a trampoline, then wait for Stan to jump down.

Minikit 8: Garden: trim the hedge

To the left of the gold exit door, smash the clutter beside the hedge. Dig up the pieces and build the hedge trimmer. Use Jean Grey's telekinesis to cut the shrub into an X and obtain the minikit.

Minikit 9: Later lounge: vending machine passage

After rescuing the students, move the purple bookcase with Jean Grey. Magneto dismantles the vending machine on the right. Build its pieces into a shield switch and activate it with Captain America. Enter the opened glass room and send Mister Fantastic through the grate.

Minikit 10: Hangar: four computer panels

While fighting Juggernaut, use Jean Grey's telekinesis on the four yellow computer panels around the room's corners. Destroy all four and collect the reward before completing the final helmet-removal and finishing sequence.

Final completion check

Before the final boss hit or exit, confirm 10/10 minikits and the Stan Lee rescue message. Confirm the 110,000-stud True Believer target has registered, either on this run or an earlier saved run. Finish the mission if you still need its story-completion Gold Brick.

If the story is already complete, use the pause menu's exit/return option and choose Save and Exit to keep new collectibles. Wait for saving to finish. Previously collected minikits are replaced by studs on later visits, so check the saved counter instead of expecting every canister to remain visible. If a multi-object challenge is incomplete, finish it before leaving.

These checks complete this story mission. There are no Deadpool red bricks or separate Free Play character-token hunts in these 15 main story levels. Bonus missions, Manhattan activities, character purchases and other hub collectibles are separate requirements for 100% of the entire game.
